

## **Campus Assignment Process Campus Preference Form**

North Peace Secondary School operates two campuses for Grade 10 students: the Main Campus and the Energetic Learning Campus (ELC). All incoming Grade 10 students are assigned to one of these campuses for their Grade 10 year. The **Campus Preference Form** provides students and families with an opportunity to share information that may influence this assignment. While placement at a preferred campus cannot be guaranteed, the Campus Assignment Committee does review and consider all submitted forms when making decisions. Over the coming weeks, students and parents will have opportunities to learn more about both campuses and determine which environment may best support the student's learning needs. We encourage families to ask questions and review all information shared through presentations to date.
